

Milkman Interactive Tracking for Recipients

Bridging interactive communication flows with shoppers, is now a lifeline to success. **Milkman Interactive Tracking** offers full visibility over the order delivery process, enabling options for rescheduling. If configured accordingly, it allows to collect shopper [ratings and feedback](#) after each delivery.

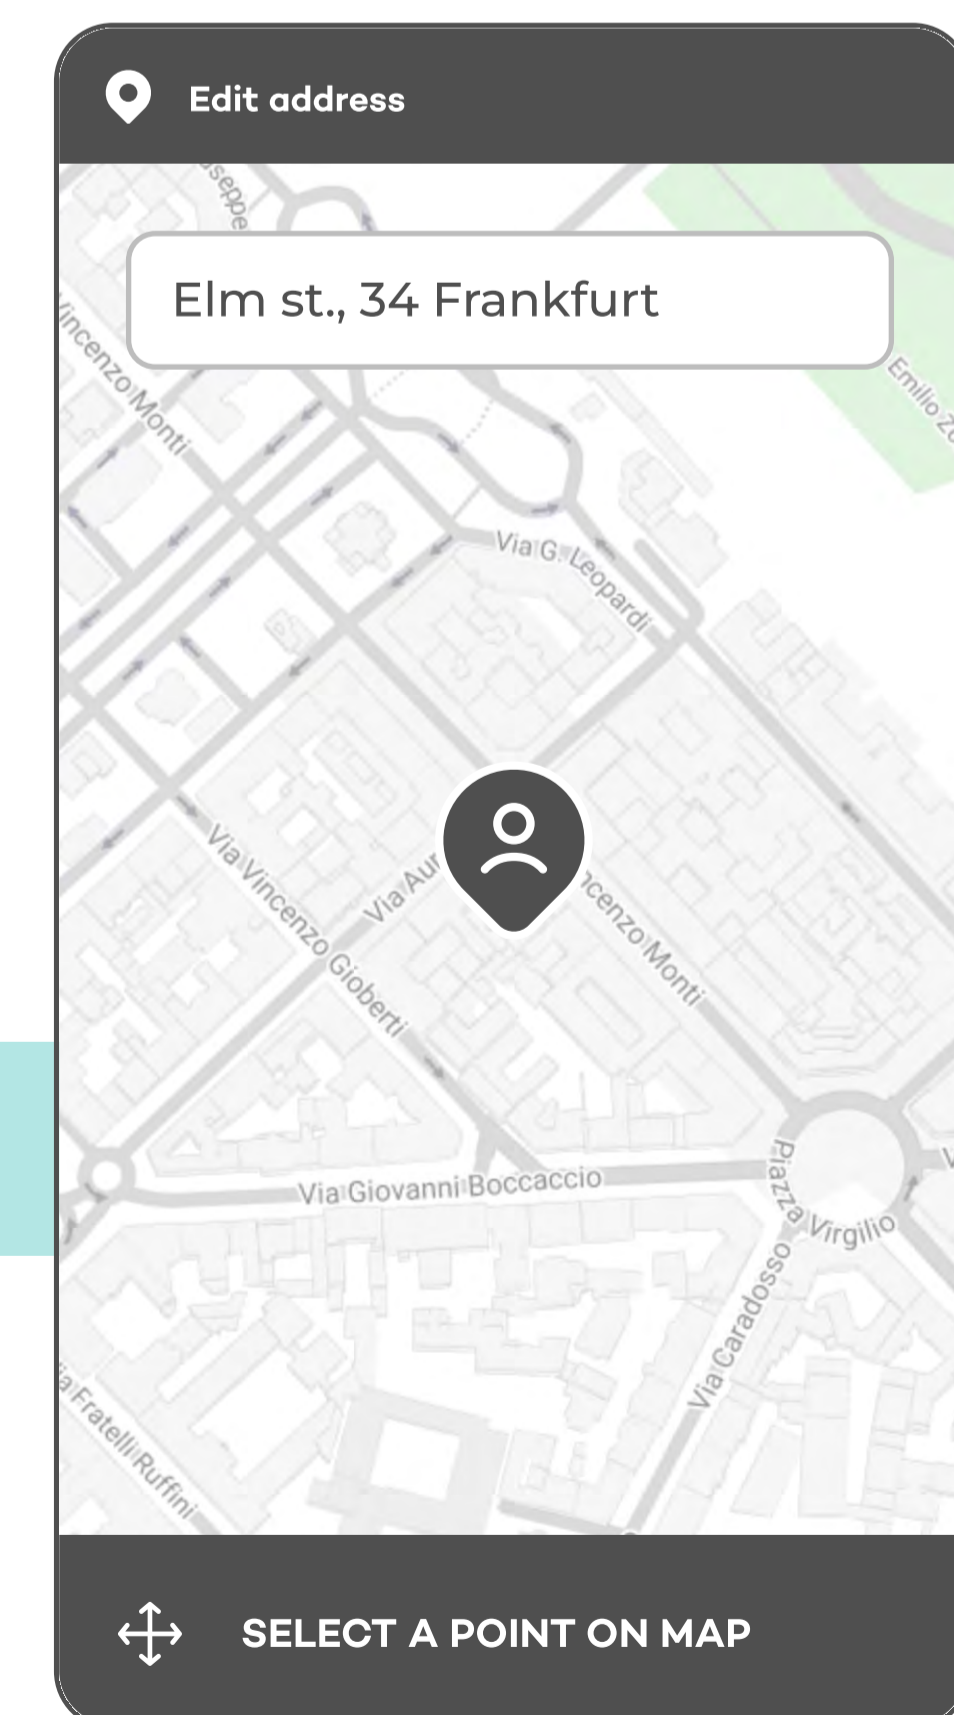

We received your Retailer.com order.
When would you like us to deliver it?
<http://retailer.com/8e3h5r>

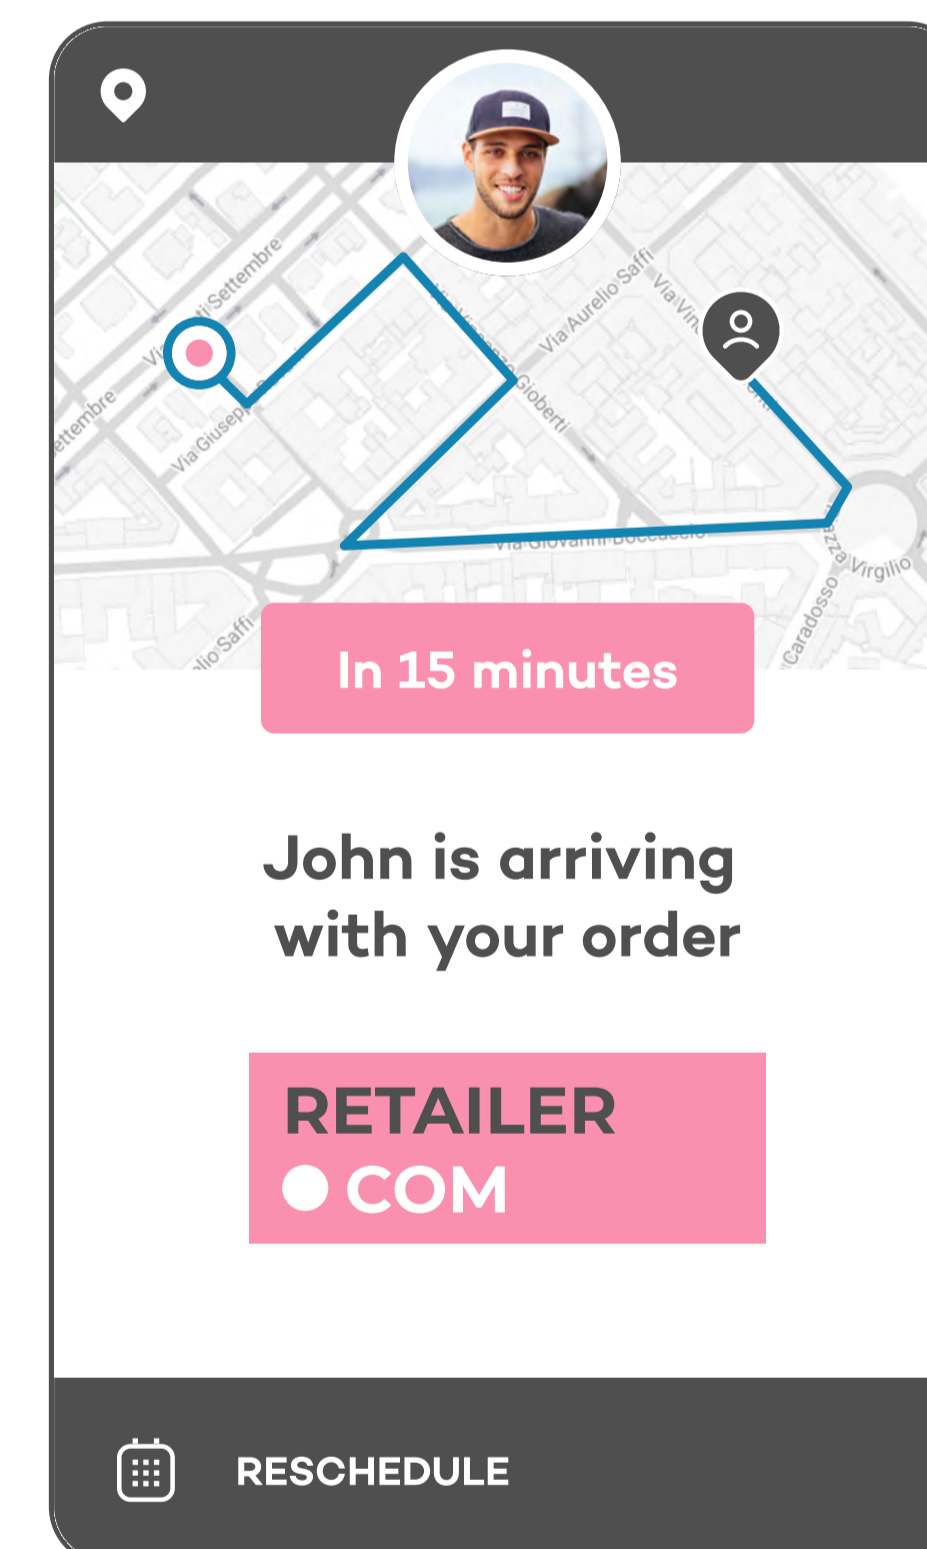

Rescheduling Options: enable time windows adjustment until the last minute

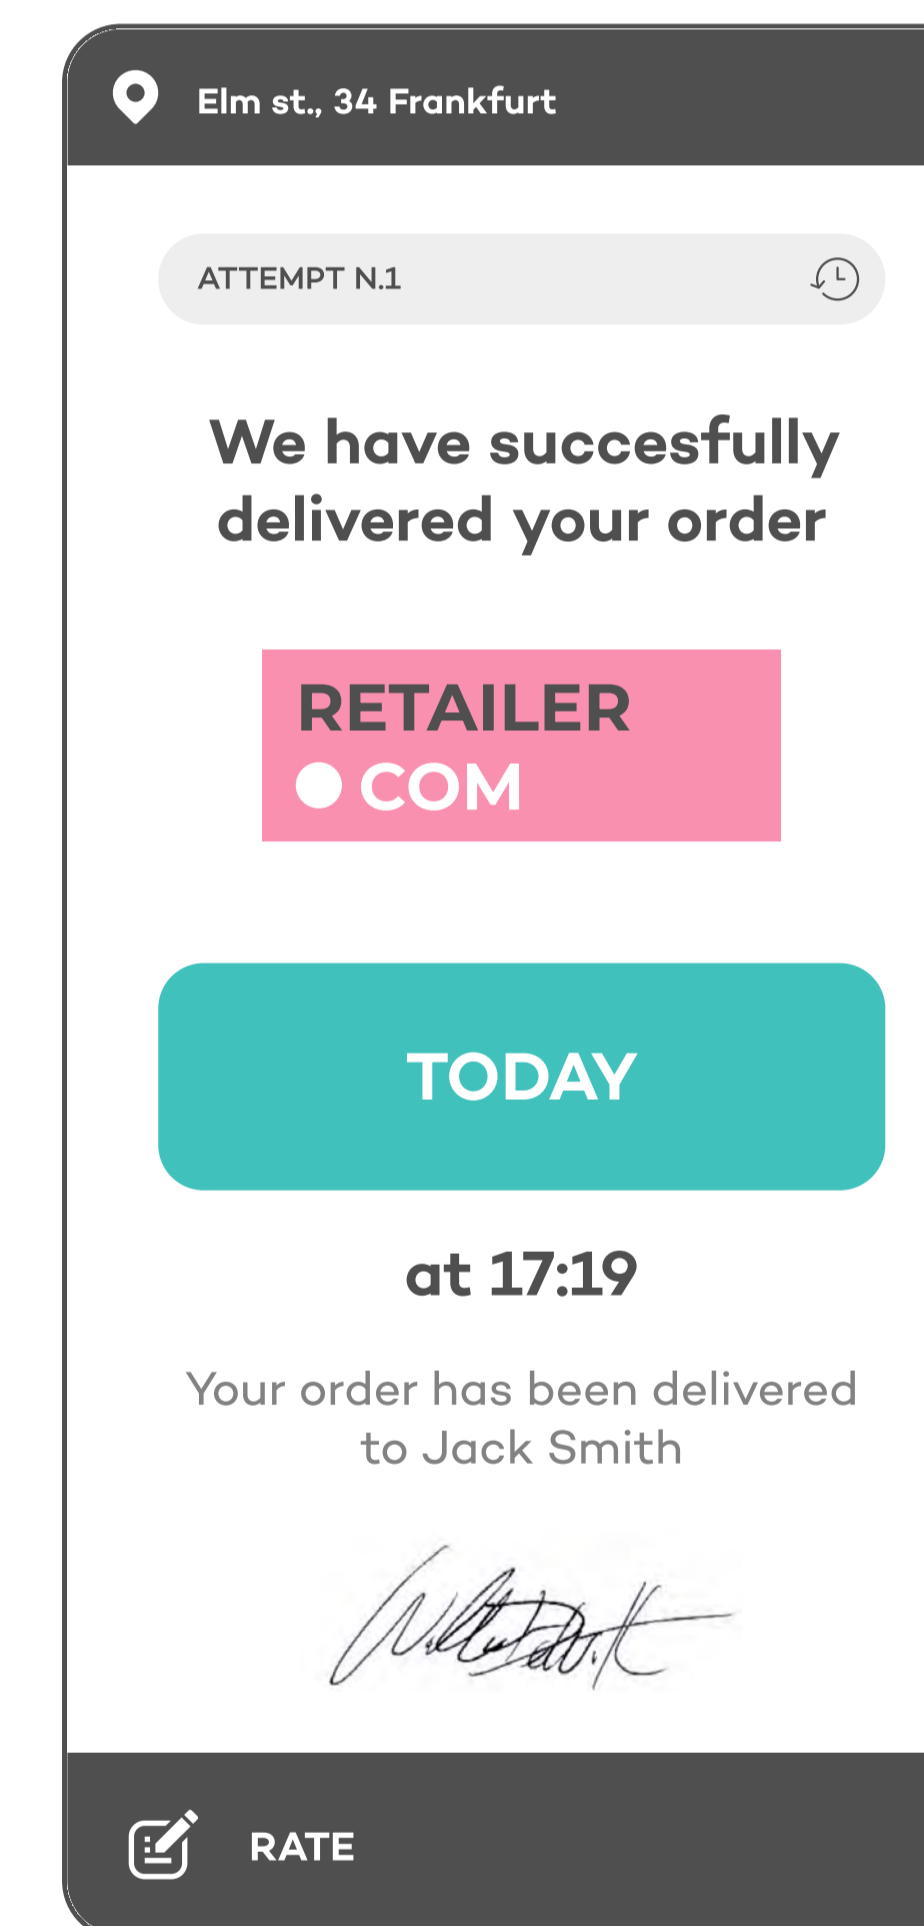

Edit address: allows to change address even after purchase.

Real-time updates: offer dynamic visibility on the estimated time of arrival.

Rating and Feedback: empower Retailers to master a consumer-centric last mile and help Carriers improve Driver's performance.

Brand first

Perfectly integrated brand visibility guarantees a consistent customer experience.
